

Reiki-ssage®

Certification Workshop Series

2003

There Is A Difference!

Reiki-ssage

Overview

Reiki-ssage® is the remarkable system of healing that blends the best of massage, the best of energywork and the best of spiritual/astral healing to create a pure integration of therapies. By simultaneously working all three major components of the human form -- physical, energetics, and spiritual/astral -- Reiki-ssage® creates a **true, whole-self therapeutic experience** that provides often dramatic results.

Many therapists use Reiki in combination with massage. While most are wonderfully pleasant and often effective, Reiki-ssage® takes the concept and builds upon a unique and complete philosophy and approach to healing that generates dramatic differences. Reiki-ssage® is **transforming the way therapists practice healing**.

The systematic flow guiding each session through the structures of the human form and into the quiet oasis of Sacred Space creates a profound opportunity for healing.

*I've had massage before,
but Reiki-ssage is so
much more than that.*

The system was developed by Rick and Connie Vrenios over many years of trial and error. Capturing the essence of Reiki-ssage® with words is difficult without using the old wornout cliches that are widely used, and rarely met. Yet, Reiki-ssage® **consistently exceeds student and client expectations** across the country.

*Traditional massage will
never be good enough
again!*

Al Kerpe, MD

We invite you to **experience the Reiki-ssage® I Workshop** and decide for yourself. There is no obligation to continue, and there is no hard sell during the workshop presentation.

Reiki-ssage® and Massage Laws

While Reiki-ssage® uses massage techniques, it is not massage therapy. While it falls within the scope of most massage legislation, the new Illinois Massage Licensing Act provides an exemption for Certified Reiki-ssage® Practitioners.

The Reiki-ssage

Concept

Reiki-ssage® is much more than just another technique. It is built around a complete philosophy and approach that can support and strengthen literally any other modality of healing. ***There is a Difference!***

The strength of natural therapies is the whole-body approach versus a focus on the symptoms of disease. Unfortunately, many definitions of health used today only describe symptoms of health. When armed with the understandings of the clear definition of physical, energetic, and astral health as presented only in the Reiki-ssage® Workshop Series, you have a far greater capacity to positively affect the overall health of your client.

I came to learn the massage, but I learned so much more about healing and being a healer. That was a real gift for me.

V.W. Joliet, IL

The Reiki-ssage® System of Healing is based on the philosophy that the human form is constructed with three primary components: physical, energetic, and spiritual or astral. Combining that information with the understanding that our universe functions based on the Law of Cause and Effect, we see some important factors when trying to affect health.

Traditional massage uses physical touch to create responses in the physical body. Because of the integrated nature of the human form, there is some benefit in the energetics and spirit, but these benefits are like indirect, ripple effects. Much the same, energywork uses energetic touch to create responses in the energetic body. Like physical touch, there are benefits in the physical and spiritual bodies, but these are side effects created indirectly by the shifts in the energetic body. The same philosophy applies to spiritual healing.

Reiki-ssage® uses a pure integration of massage, energywork and spiritual/astral healing to create a simultaneous, Multi-Dimensional approach to healing. By directly affecting all three primary components of the human form, there is a much deeper relaxation response, a more dramatic and long-term healing response, and a much stronger sense of well-being for the client afterwards.

Finally, by creating an in-depth and practical understanding of the energy and the human form, your ability to perceive and influence energies will be greatly enhanced. You will experience shifts in perception that will help to expand your ability to experience the full quality of energy.

Energy Healing

Basics

The Reiki-ssage Workshop uses energy balancing concepts from Reiki as a foundation, and assumes that students already have this foundation. Because of the interest from nurses, massage therapists, physical therapists and medical doctors who may not have the Reiki I Training, we offer the Energy Healing Basics Workshop (EHB).

The EHB Workshop provides the fundamentals of energywork in a combination of lecture and hands-on experimentation. In three hours, students receive all the basic information necessary to succeed in the Reiki-ssage I Workshop.

At this workshop you will learn...

- * *The global and historical acceptance of energywork.*
- * *Basic understanding of energy and how to connect with it.*
- * *Exploration of the Chakra System, types of chakras, their purpose, energetic expressions of each chakra, and their role in health and disease.*
- * *How energywork can assist the healing processes and enhance overall health.*
- * *How to give an energywork session for others and yourself.*
- * *How to feel and actually see energy, auras, and the subtle bodies that comprise the human form.*
- * *Reiki-specific vocabulary in preparation for the Reiki-ssage Workshop.*

“It was like a door opened. You walked us through the exercises and it made it all so much clearer, like a light bulb clicked on. I’m so glad I went to the workshop!”

Advanced Certification

For many, the Reiki-ssage I Workshop provides more than enough to satisfy their hunger for new information for awhile.

For those who want more...

The Reiki Council Training Center offers the 200-hour Reiki-ssage Certification Workshop Series!

I learned more valuable information about healing in one weekend with you than in an entire year of massage school!

J.G. Palatine, IL

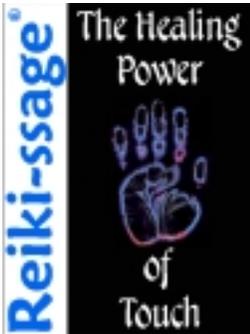

The original Reiki-ssage I Workshop is the foundation level that the entire training series is built upon. The remaining seven classes, including CPR and First Aid, expand the possibilities with new applications, technical and conceptual refinement, and deeper clarity and insights into the inner workings of healing and the multi-dimensional human form.

Keep reading and discover the vast treasury of unique information and insight available through the Reiki-ssage Certification Workshop Series.

Reiki-ssage I

Proficiency

The Reiki-ssage I Workshop presents a tremendous volume of information packed into a 16 hour program. It is difficult to absorb it all. The presentation is a progression revealing deepening layers of understanding and application so the entire philosophy of healing is not tied together until the last 30 minutes of the workshop.

The second level of the workshop series is to repeat the first workshop at the Proficiency level. This gives students the opportunity to receive further refinement to their technique and use of body mechanics. It also gives students the ability to experience the system from the "big picture" perspective that is not possible in the first workshop. Finally, it gives students the opportunity to absorb and retain much more of the information presented.

Like a Brand New Workshop!

Many students report that even though they are reviewing the same workshop, the new perspective lets them experience it like a brand new workshop.

At this workshop you will learn...

- *Expand your capacity to provide Multi-Dimensional Touch™ in a session.*
- *Master and lock in the essential components of the philosophy and approach to healing.*
- *Improve body mechanics and application of energetic touch in a supervised environment.*
- *Develop confidence and skill when offering the table and seated Reiki-ssage® Session.*

Reiki-Reflex

Workshop

The third level of training in the Reiki-ssage Workshop Series is the Reiki-Reflex Workshop. Reiki-Reflex is the blissfully relaxing integration of Reflexology and Zone Therapy concepts with Reiki or other energy work.

Starting where Reiki-ssage left off, Reiki-Reflex continues the progression toward creating a true Multi-Dimensional Touch through the body reflex zones and the subtle lines of communication.

Where traditional Reflexology can be very “pointed” and often painful to receive, Reiki-Reflex has a much more gentle quality, while producing just as many, if not more, significant overall health results.

At this workshop you will learn...

- *Advanced Reiki-ssage® techniques to utilize the skills and subtleties that **make a tremendous difference** in the quality of your sessions.
- *Expanded ability to provide Multi-Dimensional Touch™ and influence the physical, etheric, and astral bodies with **greater effectiveness**.
- *Usable **knowledge of Reflex Zones** and Zone Therapy concepts.
- *The skills to provide the **easy-to-learn Reiki-Reflex™ technique** for the feet.
We have found that Reiki-Reflex™ is so relaxing that most clients drift into sleep!
- *Insights into the magnitude and significance behind the **interconnectedness of life** and applications for Reiki-Reflex.
- *Understand the **impact of today’s stress lifestyle** and how Reiki-Reflex™ and Reiki-ssage® can stop and even reverse the devastating consequences.

CPR / First Aid Certification

In compliance with the industry standard, nearly all health care modalities require current certification in CPR and First Aid. It is critical to know how to respond in an emergency situation. These classes provide a clear plan to help increase the survival chances for a victim.

Learn basic emergency lifesaving techniques and procedures, including Cardio-Pulmonary Resuscitation, in this 4-hour class. When CPR is administered properly in the first minutes of the crisis, the chance of survival is greatly increased.

Learn the symptoms to help you recognize a heart attack, cardiac arrest, stroke, and airway obstruction. Then, learn the proper responses and care procedures for each of these emergencies. The workshop format includes lecture, a video presentation, hands-on practice and the CPR Certification Test. Books, materials, test, and certification card are provided in the cost of this workshop.

First Aid Certification

\$40.00

This 4-hour workshop teaches you how to determine a safe response to common medical emergencies. Learn to recognize life threatening situations such as cardiac or respiratory problems, severe cuts or wounds, poisonings, bites or stings, etc. Then, learn the basic emergency response procedures to care for the victim until advanced lifesaving support arrives.

The workshop format includes lecture, hands-on practice, and the First Aid Certification Test. Books, materials, test, and certification card are provided in the cost of this workshop.

Students with current certifications for one or both of these classes may receive automatic credit for the course(s). Classes may be taken in your local area with a qualified instructor.

Documented

Practice Hours

Mastery in anything comes only through experience. The grace, perceptiveness, power, and clarity of the Multi-Dimensional Touch takes some time to develop. Therefore, an integral part of the Reiki-ssage Workshop Series is 100 hours of documented at-home practice.

At the Reiki-ssage I Workshop and the Reiki-Reflex Workshop, you will receive master copies of the forms to document your required practice sessions. After each practice session, your client records some feedback and positive criticism for your learning in one section of the form. You record your observations in the other section.

Your forms are reviewed periodically by your instructors to help guide your training. Client criticisms are not graded, and suggestions for improvement are desirable.

Between the Reiki-ssage I Workshop and the Reiki-Reflex Workshop, we strongly recommend that you complete 25 hours of documented practice. Prior to taking the Reiki-ssage Mastery Workshop, you must have completed 75 hours of documented practice. Prior to registering for the Certification Exam, you must have completed all 100 hours of documented practice.

The Course that Pays for Itself!

The total cost for the Reiki-ssage Certification Workshop Series is \$1500. If you ask your friends and family to contribute only \$15 toward your educational fund for each one-hour session you provide, you will have paid for your complete education before taking the Certification Exam. Who wouldn't be willing to exchange \$15 for sixty minutes of Reiki-ssage?

Need a massage table? The Reiki Council offers an excellent range of tables. Only \$20 per practice session can cover your tuition and your equipment!

The Certification Exam

Celebrate your achievement with the Reiki-ssage Certification Exam. Having completed all 7 workshops and the required 100 hours of documented practice sessions, you are ready to prove yourself and claim the title Certified Reiki-ssage Practitioner.

You have 4 hours to complete the two-part exam. The first half is a written exam. It is a comprehensive test using multiple choice, true and false, and fill-in-the-blank questions from the Reiki-ssage workbooks and lectures. It is a 100 point test and you must receive a 70% or better to pass. The second half is a practical hands-on test demonstrating your working knowledge and technical competency.

Results are made available within two weeks. In rare cases with smaller testing groups, results may be made available on the day of the exam.

In the event you do not pass the exam, you will receive study recommendations and may retake the exam at the next offering.

Successful candidates are awarded a certificate and may use the Reiki-ssage Logo in conjunction with their work. They are also entitled to the use of the Certified Reiki-ssage Practitioner title and may opt to be listed in our national referral network and web site.

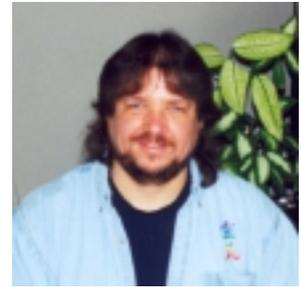

Advance registration is required with the \$99 exam fee. All course requirements must have been met before registering for the exam. The 4-hour exam represents the final block of hours toward the 200-hour certification.
